r	🚦 📔 🗟 😴 🗧 My Movie - Windows Live Movie Maker					
	Home	Animations	Visual Effects	Project	View	
	Paste	Add videos Add and photos music	Webcam Snaps video	A Title Captinot	ion its •	<u>~ 40</u>
l	Clipboard		Add			AutoMo

These instructions are for Windows Live Movie Maker which is different than Windows Movie Maker

Go to the File drop down menu and select Save movie

At the bottom of the choices select Create custom setting...

Set the settings as follows

Create Custom Setting				
Setting:	<new></new>			
Name:	Fellows			
Video settings				
Width:	640 pixels			
Height:	480 pixels			
Bit rate:	512 kbps			
Frame rate:	30 fps			
Audio settings Audio format: 128 kbps, 48 kHz, stereo				
Estimated file size: 4.58 MB per minute of video				
	Delete Save Close			

Then click Save and on the next window and accept the default name of Fellows and click Save again

Then go back to the file drop down menu and select Save movie again

This time at the bottom of the menu there will be choice that says Fellows, select it.

You will then be prompted for the file name and where you want to save it. Pick a name and location for your movie and then click Save.

The resulting file should be less than the maximum size allowed for application submission.
